My Dear Mr. Prophet,
I am thankful for the gift you sent along with your letter. It was exactly what I desired to have beside me over here. A good book is like a good friend; it converses with you and teaches you many things that you may not know. Everyone relished the chocolate too, because I shared it with Brijisan, the nurse and the maid.
Most probably you must have purchased the same quality of chocolate for the occasion of Christmas Celebration as well! Excellent choice!
But I was wondering who had sponsored it? The principal, the teachers, or the students?
I suppose all had their share accordingly in carrying out the celebration. In any case I am thankful to you and would like to continue to write the remainder of the events and story to "Chitra-e-Khuma".
As I stated before Prophet (p.d.u.h.) along with 10,000 followers reached the city of Makkah. I also entered Makkah in the month of Shawwal 1000 H. I am writing to you and the order between the two is not far apart. I am writing to you and the order between the two is not far apart.

20

The school door was opened and he came out. He was an employee wearing an orange outfit. He was from the Electricity Department. They were installing electric poles behind the school premises. He greeted me and said: The principal of the tree is coming in the way of the electric wires. He sought permission to cut those branches.
I told him that the principal of the school, hence he'll have to return tomorrow to meet the correct authority.
The school was now being worked upon by the staff and the students. It was a busy scene. The principal of the school, hence he'll have to return tomorrow to meet the correct authority.
